**Flavors of Europe (June 12 - 15)**

Students will spend four days learning about countries of Spain, Germany, France and Italy. They will learn about many of their historical landmarks, food, sports, music, language and other interest.

**Geology Week (June 26 - 29):**

The young scientist will be introduced to rocks and materials, starting with the eight major characteristics of all rocks. New hands – on experiments will be performed. Students will also learn about the layers of the Earth.

**Cultures from around the World (July 10 - 13)**

This new workshop will explore the countries of Mexico, Egypt, China and Australia. Each day will cover one of these unique countries. They will learn about many of their historical landmarks, foods, sports, music, language and other interest.

**Space Week (August 7 - 10)**

This new workshop will teach about the future of the U.S Space Program, but what other companies are planning for future colonization. They will be learning about planning, experimentation of various foods and products, solar energy, and basic astronomy.

**Price:** \$50.00 for PSF members' children \$60.00 for non – members children before May 1  
\$70 for non-members after May 1 **No Refunds on Children Summer Workshops**

**2017 SUMMER WORKSHOP APPLICATION**

Please submit application no later than one week prior to workshop start date
