

Children's Workshop:

Climate Change and How Will It Affect Us

Monday, February 19, 2018 (President's Day No School) 10:00am to 3:00pm

The Planetary Studies Foundation will be offering a one-day children's workshop on Monday, February 19 (Presidents Day- School Off) from 10:00 a.m. to 3:00 p.m. Come join Diane Sipiera, Judith Glenn and **WQAD's Senior Meteorologist, Eric Sorensen** as they help your child explore how our Earth is effected by climate change. Children will learn how various oceans and weather patterns are changing our world. Additionally, **Martha Purchis** will be presenting on Wilson Bentley, the pioneer of snowflake photography and the Caldecott Medal winning book "Snowflake Bentley".

This workshop is for children ages 7-12 and are limited to the first 10 registrants. This workshop will take place at the PSF Earth & Space Science Museum located at **115 N. Main Street, Elizabeth, IL** Please submit application and check no later than one week prior to workshop start date. **Please have child bring sack lunch. No refunds.**
